Black Stainless Steel

Seamless accessibility

Easy Access Controls

Enjoy stylish, but easy control, even if you have restricted movement. The Hidden Display enhances the minimalist design as it is discretely hidden inside. The controls are within arm's reach, even from a wheelchair, and usable with one hand, ensuring better accessibility for disabled people.

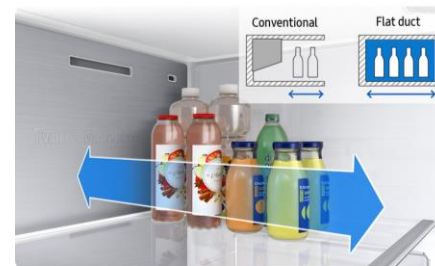

SmartThings Energy

Efficient energy use, Smart savings

Manage your energy usage to reduce your carbon footprint and save money. SmartThings Energy* provides energy efficiency tips. It also monitors the energy consumption of appliances** in real-time and compares it to the previous month. And it alerts you if your monthly targets might be exceeded.

* Available on Android and iOS devices. ** AI (refrigerator and/or freezer) and/or cameras are not supported.

** SmartThings Energy currently works with around 40 Samsung Home appliances that are SmartThings enabled. These include refrigerators, washing machines, clothes dryers, air washers, air conditioners, air purifiers, vacuum cleaners, blenders, toasters, coffee makers, microwave ovens, TV (from June 2023) and energy meters.

More space, less waste

Flat Duct

Get more space without compromising on performance. Unlike conventional ducts, the thin cooling vent in the rear wall is completely flat, which minimizes dead space and creates more room to store food. But it still cools and ventilates just as effectively, so everything stays fresh and tasty.

Efficient compressor

Digital Inverter Compressor with 20 year warranty

Enjoy great energy efficiency, little noise and a long-lasting performance. The Digital Inverter Compressor automatically adjusts its speed in response to cooling demand. So it is quiet, uses power efficiently and keeps working for long, backed-up by a 20 year warranty* on the compressor.

* 20 year warranty is limited to the compressor only.

Thank you
